

ITEMS OF LOCAL INTEREST.

Monday, May 25, will be observed as Empire Day all over Canada.

Conductor Layland, of the members of the "Council of his confidence tonight."

Mr. D. Broadbent left last Friday evening for Toronto and other Eastern points on business.

They were 1900 made during the first two days of Len. Stacey's sale. It certainly pays to advertise in "The Review."

The first travel was taken from the river this week by C. R. Leamer and delivered to the Roamer, west of town. Mr. Paul Voel, contractor, says it is of a very fine quality.

As Monday, May 25, is Empire Day and a Dominion holiday, the town Council will hold its regular meeting on Tuesday, May 26, instead of Monday.

Housekeeper Crooks drove a large herd of cattle through town Wednesday on their way to the pound. It seems they were running at large and had done some damage to private property.

Mente Woodcock left last week on a prospecting tour in the north country. He intends looking over that remote country with a view to locating there.

A meeting of the different sub-committees of the Conservative Association will be held in A. P. Munroe's office tonight (Friday). A full attendance is requested.

Almost every train for Calgary these days is carrying a bunch of oil men. According to all reports the two cities will have their share of oil men.

The last C. P. R. bulletin, a paper published weekly, contains a write-up of Redcliff showing the rapid development of the town and dealing with a number of local improvements now under way.

This week has seen quite a change in the weather and we were treated to a few much-needed showers. As a result garden stuff, crops and lawns have made in extra smart and are now looking green and healthy.

Mr. Thomas Graville, formerly of Montana, has been engaged as musical director at the Empress Theatre. Mr. Graville has a wide experience in this line and will be quite an acquisition to the musical circles of the town.

Mr. LeMay of the A. M. U. of This town with a painful accident this week. When working around the place his arm was caught in the gears and was badly lacerated. It will be several weeks before he will be able to use it.

One of our readers who resides just at the outside edge of the town asks us to suggest that all people owning vicious dogs keep them tied up at night. He says at the present time he is "afraid to go home in the dark."

McLaughlin Bros. have had this week two of as finely decorated display windows as one would see in any of the larger Western towns. Apart from being artistic, they contain an assortment of right-up-to-the-minute goods in genteel furnishings.

A cricket match between the Alhambra and Redcliff will be played on Monday afternoon, commencing at 1 o'clock. The game will be played on the football grounds, First street. This will be a good opportunity for those who have never seen a cricket match to see the Englishman's national game.

Last week we received through the mail a news item, but as it did not reach our office till after the paper was out it did not appear. This happens quite frequently and we would suggest that in order to make sure, items be left at our office or telephone here and we will send after them.

As a result of the frog legs being given away at the Overland Departmental store during the past week a number of our citizens have taken advantage of this opportunity to beautify their property. No one should miss this chance. A few more shads toes around must appreciably increase the appearance and value considerably.

John L. Landis and Mrs. Landis arrived home Thursday evening from an 80th anniversary trip to Empress, Alaska, Prince Rupert, British Columbia, and Yukon Territory. They found the roads in first condition and

made a very pleasant trip. Mr. Landis reports the crops in the regions visited as being limited for per cent, variety of the "bumper" variety.

The Overland Observer, a paper printed on the train daily by the business men, who are touring the West, has a lengthy article on Redcliff, its growth and development.

At a session of the Western Canadian Colonization and Developmental convention held in North Battleford last week, a committee was formed to formulate a concrete scheme for the unification of effort toward obtaining for Western Canada a population of 1,000,000 in ten years.

Mr. D. Fred R. Robertson left today for Calgary to represent the Presbyterian congregation at a meeting of Presbyteries being held there. The call extended to Rev. G. Lawson Gordon will be considered. Mr. Henderson was to accompany Mr. Robertson, but was unable to go owing to court dates.

Last Wednesday evening a light rain fell and a water-proof coat was stolen from in front of the H. A. Hicks gent's furnishing store. The police have been notified and are hot on the trail. As they had no clue to work on sufficient information has been dug up to convince them they are on the right track and that they hope to locate their man in a short time, as both the suit and coat can be easily identified, the thief may get around him he will be run down sooner or later.

F. M. Howell, of Lapai, Indiana, returned to his home in the States on Monday evening. Mr. Howell has been engaged by the Dominion Glass Company at Redcliff since September last and was loath to leave this town, "the finest place I ever worked at in my life." He will return with his family in time to be on the blowing platform at the beginning of next fire. He was given a royal send-off by many acquaintances on Monday evening.

"The school baseball" boys were greatly disappointed last Saturday at the Medicine Hat boys did not put in an appearance to play a friendly game as arranged. The boys, however, picked up a scratch team and played among themselves. A fair-sized crowd of nice gentlemen to watch the game, but it was only a few minutes till they found out that our Redcliff boys were much more proficient. At the fifth half of coming and swearing that they are at the art of playing ball. Naturally the crowd quickly thinned out.

In his last week's issue the Brooks Bulletin says: "The Review never said a word about the 90 defeat Brooks gave their football team." We are sorry to have disappointed the Bulletin as we know how these small places like to get their names in papers published in busy centres like Redcliff. We had an account of the game and also two games which Redcliff won, but as often happens on busy days, they were all crowded out. However the next time Brooks defeat Redcliff 90 we will give them a big two-column heading, so there, Bulletin, dry your tear away.

The vaudeville show put on at the Avenue U Theatre last Friday night attracted a good sized house. Unfortunately the engine in connection with the theatre broke down, making it impossible to put on the usual picture show. This, of course, could not be helped, but what struck us as very strange was that a vaudeville outfit composed of six people could not put on show enough for an evening's entertainment without the pictures. We venture to say we could get six people together here in Redcliff in an hour's notice who could entertain a crowd all night.

A crowded house greeted the Tom Marks company, which held the boards at the Avenue U Theatre last Monday night.

The company presented the popular train, "Pop-My-Heart," starring Miss Arley Marks, daughter of the popular Canadian comedian. Although the audience was greatly disappointed when they found Tom himself did not appear in the cast, they were delighted with the performance of his daughter and the strong company supporting her. Miss Marks, although still in her teens, has inherited enough of the old man's Irish wit and brains to admirably fill her part for the leading role in this play and came out as a coming leader in the theatrical world.

A benefit football match will be played on the football grounds here tomorrow evening between the home team, the Redcliff, and the team of the game for the benefit of the Tommy Gordon, who was hurt during the game at Dunmore last

week. This is expected to be one of the best games of the season and should attract a big crowd. The following line-up of the teams: Calles—Goal, M. Gillman; backs, Parker and Gordon; half backs, W. G. Watson, Blagly and Smith; forwards, Cameron W. Watson, McLean, and Gordon.

Redcliff—Goal, J. Jones; backs, R. Bly and J. Campbell; half backs, G. P. Gordon, W. McLean and J. Gordon; forwards, E. Argue, D. Smith, P. Laxton and A. Edwards.

Mr. J. Williamson of Medicine Hat will address a meeting of ladies in the Presbyterian Church on Thursday afternoon at 3 o'clock. She will give a report of the recent Missionary Convention at Calgary. Refreshments will be served, for which tickets will be asked. All ladies are invited to attend.

In a letter to The Review renewing his subscription, Mr. S. C. Sann, a former resident of Redcliff, but now of Prince George, B.C., suggested that we warn those intending going to that place, not to go for at least another week, as things are very quiet at present owing to the unsatisfactory freight service. Mr. Sann also says: "Give me Redcliff for a safe investment in preference to anything I have seen since I left."

The Lockwood building, now in course of construction, on Broadway, is progressing rapidly. The brick work is now up for the first story and carpenters are at work on the wood work for the first floor. With favorable weather the brick work will be finished next week.

The C. P. R. uptown telegraph office has a minor accident in the window. Some time ago the window was filled with earth and seeds plating. Today there is a healthy display of growing lettuce, onions and radishes. The window shows that the operator here is a firm believer of the C. P. R.'s mixed farming policy.

TO ORGANIZE EASTERN STAR LODGE HERE.

About fifteen ladies met at the residence of Mrs. A. W. Woodcock last Wednesday night for the purpose of taking the preliminary steps to organize a Eastern Star Lodge in Redcliff. It was decided to call the new chapter, Diana, and the three official officers were selected as follows: Worthy Matron, Mrs. Phillips; Worthy Master, E. A. Holger; Assistant Master, Mrs. Parker.

GERMAN COLONY YEAR BANQUET WILL START FARMING.

We do not intend to stop with farming. In fact, we have plans for starting industries allied with farming. As soon as the first experiment demonstrated its success, we shall enlarge our interests."

This is the announcement of Arthur Thaden, managing director of the German syndicate, which is colonizing the Bananas.

At present a big distillery is in contemplation and a yeast factory as well, so that the undertaking will be industrial as well as agricultural.

A large proportion of the colonists are of the nobility, and some persons of title. For instance, the Count von Bernstorff, who is a cousin of the German Ambassador at Washington. Then there is Baron Finckh, another Baron von Bernstorff.

Wiscam. "All the colonists, numbering fully one hundred, will live on the land, and all the men will pitch in and do the work. Indeed, except at harvest time when hands will be brought in, all the work on the estate will be done by the colonists."

CALGARY STOCK YARDS DOING BIG BUSINESS.

"As the result of a careful and accurate compilation of all the available statistics a most satisfactory picture of the volume of business done at the Calgary stock yards is most encouraging. Commencing with Nov. 1, 1913, and up to and including April 30—a period of six months—not fewer than 301,848 animals had been sold in the Calgary yards. The approximate value of this livestock was \$4,944,787."

His Close Call. A small boy handed in the following in an examination paper in United States history:

"Gen. Braddock was killed in the Revolutionary war. He had three horses shot under him and a fourth went through his clothes."

BALL GAME FRIDAY NOT TAKEN SERIOUSLY

The baseball game played last Friday between the regulars and a team picked up for the purpose of giving them a workout attracted a fair crowd.

In spite of there were some exhibitions of good ball, but the tendency on the part of the players during most of the game to make it a horseshoe, rather than a good hard practice spoiled the object of the game. It was the intention of the committee to have several such games in order that all the material available might be brought out, get the players played, find out and criticize the weak spots and in a word, get the best possible regular line-up from material available.

It is, however, impossible to accomplish this or improve matters in any way unless the players themselves take some interest in the game and get right down to business. There must be good, hard, systematic practice and training if we are going to get the best results.

The citizens of the town have come through with liberal support financially to make it possible to secure suits, outfit, etc. The rest—the success or failure of the club—now rests with the management and players. By success we do not mean they must win every game. The citizens will stand behind a team whether losing or winning so long as they know the players are doing the best they can. They only way they can do their best is by getting interested enough to do the necessary hard practicing.

Charity Shield for Football Competitors

At a meeting of the football executive held in Medicine Hat Wednesday night, Mr. S. E. McLean, of Medicine Hat, donated a shield to be played for by teams in this district. The prize will be known as the Charity Shield and the proceeds from each game in the contest will go to charity. It is expected that all the teams in the district will enter and it is hoped the receipts will be such as the worthy object deserves. At present it is expected that teams from Redcliff, Medicine Hat and Dunsmuir will enter, but the schedule has not yet been arranged.

Employers of Labor should be protected by Liability Insurance. Let J. L. Landis & Co. write you a policy in a good strong company. ***

Redcliffs Win from Moose in Medicine Game

The Moose of Medicine Hat played the Redcliffs a league game here last Saturday evening.

The match was closely fought throughout and while there was no doubt that the home team were much superior the game was interesting to the finish.

Redcliff scored their first goal in a very short time, in fact, they had found the net on three consecutive before the Moose showed any inclination to win. The visitors did not show any signs of aggressiveness until, after half time. They started off, the second half with a rush but it was some time before their efforts were rewarded, when Stout by a most sensational play, landed the ball on the net. Shortly afterwards Stout scored again on a neat pass from Freeman.

With only one goal now to the good the locals got down to business again, and although they did not score again they gave to it that the visitors did not either. When time was called the home team were declared winners by two goals to two.

The home line-up was well balanced, while the visiting forwards were weak.

The result of this game places the Redcliffs one notch higher up in the league standing. Mr. Gaylor made a most satisfactory referee. The following were the players:

Moose—Goal, Pickering; backs, Appleton and Robson; halves, Cameron, Clay and Probst; forwards, Middleton, Anstutz, Stout, Horne and Freeman. Redcliff—Goal, Jones; backs, Healey and Compton; halves, C. Frielton, Lense and K. Frielton; forwards, Argue, Smith, Loxton, Bobby and Edwards.

ALTERATIONS MADE IN HOMESTEAD REGULATIONS

A bill has been introduced into the Commons by Hon. Dr. Roche, Minister of Interior, to amend the Dominion lands act. The bill aims at making some of the conditions in regard to the homesteading and the securing of the pre-emption in the West less onerous than they have been. One important provision is that a homesteader will have a right to take up a pre-emption three years after he has secured the title to a homestead, or he may purchase a pre-emption at once at \$5 per acre, provided 50 acres is brought under cultivation. Another

provision is that instead of performing homestead duties such as have been prescribed in the past, a settler may buy a certain amount of stock on the land. The idea is to encourage pastured farming.

CANADA HAS GROWN QUICKLY IN LAST TEN YEARS.

A return showing the growth of population in Australia, and Canada at decennial intervals has been published by the Commonwealth Australian statistics department, and forwarded to the department of commerce here by the minister at Melbourne Dr. D. H. Ross.

During fifty years from 1851 to 1901 the population of Australia increased from 437,660 to 3,824,019, a gain of 5,371,219, while that of Canada which increased from 2,494,409 to

5,371,219, showed a gain of 2,886,806, or 400,842 fewer than Australia's gain for the same half century. This advantage on the part of Australia was, however, more than balanced in the decennial 1901-11, when Canada's gain of population exceeded Australia's by no fewer than 1,091,584, the total being 7,556,600, as compared against 4,874,168 for Australia.

SUMMER CONFERENCE.

During the last week in July a conference will be held in Alberta College under the auspices of the International Summer School Committee and the Missionary Board. The purpose of this conference is to provide training in efficient leadership for church workers of all denominations. The instruction in Bible

study, mission study, social service methods, etc., will be given by experts in these lines of work.

We have a paint and varnish for every purpose,
inside and outside.

We are exclusive Agents for the celebrated SWP, Sherwin-Williams Paint (Prepared), a paint that is used all over the world and has obtained its enormous sale on account of its quality. It is the kind of paint that you should use on your house. SWP is made of pure material—pure lead, pure zinc, pure linseed oil, etc.—mixed and ground by special machinery, in correct scientific proportions. SWP covers most, looks best, and wears longest.

For a painted finish on your floors use S-W Inside Floor Paint, made to be walked on.

For your walls use S-W Flat-tone, a durable wall finish—dries with a soft, velvety flat effect—can be washed with soap and water—absolutely sanitary—lasts for years.

There is an S-W Varnish for every varnish purpose. Use S-W Kopal for all kinds of varnishing, outside and inside. Use S-W Mar-out, a durable waterproof floor varnish for hardwood floors.

We handle a complete line of Sherwin-Williams products and so we can take care of your every paint or varnish need satisfactorily.

PLAYERS SET EXAMPLES.

Now that the different athletic games are well under way and we may expect peripatetic matches which the public will be asked to patronize, it would be well if the players would remember that vulgar and obscene language is not appreciated by the spectators and that nothing will lessen their support and sympathy more quickly than this filthy habit.

So far the ladies have been enthusiastic supporters of all athletic sports, but we heard one remark during the ball game last Friday evening that it would be her last game, till some of the players learned how to bridle their tongues.

Losing the ladies' support is bad enough, but it is not the worst feature. There is the example being set for the boys. Every players of every game should remember that he is the ideal, the example, the pattern of some boy in the crowd. His every word and action is closely watched by that boy. If swearing is indulged in freely the boy will begin to think that it is part of the game, and judging from what we saw and heard last Saturday some boys at least already are of this opinion.

Since we are on this subject we venture to suggest that it would be a good idea if parents would take sufficient interest in the welfare of their boys to drop around occasionally where they are playing, to take part in their play if possible and to show by example, as well as precept that swearing and vulgarity are not a part of athletic sports.

SUGGESTION FOR FIRE TRUCK.

In conversation with one of our citizens the other day the question of the fire hall and equipment by-law came up.

It was suggested that for the additional equipment the Council should purchase a combination motor truck and hose truck. The truck could be one similar to those being built at the Motor Truck Company factory here and could have a separate box for holding hose, chemicals, etc. The box, which would always be in readiness, could be arranged so as to hang from the ceiling of the truck in a short time. In this way the truck could be used to do the town's draying work, which will naturally be quite heavy during the coming summer and fall, and also be used instead of horses for taking the apparatus to and from a fire. Accurate tab could be kept as to the whereabouts of the truck during the day and it could reach the fire hall more quickly than horses, which are now to be depended on. At night, when most fires happen, everything would be in readiness.

This sounds feasible and while the initial outlay would be considerable the saving in draying and paying for teams would soon pay for the machine.

EMPLOYMENT FOR THE BOYS.

Appropos the above and since we are on the boy question there are a few other thoughts which suggested themselves to us as we were writing the above.

While we like as well as anyone to see the boys have a good time when they can, and while we are firm believers in the old saying that "all work and no play makes Jack a dull boy," we are also firmly convinced that all play and no work makes Jack a careless, indifferent, useless man.

Here in this, the centre of the greatest natural gas field in the world, the usual work for boys around the home, such as providing the kitchen stove with kindling and stove wood, looking after coal for the furnace, carrying out ashes, etc., is unknown, and as a result it may be somewhat difficult for parents to find employment for the boys. Consequently, they are running all to play. This condition of affairs is a serious one and one that parents should undertake to solve if they would give the youth the proper training necessary at that age, and better prepare them for the battles of life which they must one day fight. They should be reminded that the men whose names embellish the pages of history leaders in all lines of life are men who boys were taught to work first and play afterwards, while the men who would have us believe they were born with a gold spoon in their mouths and never had their youthful hands soiled by honest labor, never did and never will amount to anything in this country.

Since the gas removes many of the chores the parents had to do they must look for other employment for the boys. An incident came to our notice just the other day which may help solve the problem. We had occasion to visit a Chinese house and there saw something which made us wonder if the Orientals are not ahead of us in the matter of bringing up children. There a small boy of twelve or thirteen years of age was at work washing out his own clothes. While we do not want to encourage our boys to start in the laundry business yet they might easily help in this branch of house work. The happiest home is the land today are those where the husband and father is not ashamed to throw off his coat and help with the washing of either clothes or dishes.

The organization of the Boy Scouts here will also help materially in giving the boys profitable employment and at the same time amusement. This organization trains the boys to be helpful, resourceful, courteous and obedient. It also discourages all meanness and vulgarity. Every parent who has a boy of Scout age should not only see that he belongs but also that he performs every duty required of him, faithfully.

In his address last Sunday to the Boy Scouts, Mr. Thompson-Scanton said that 50 per cent. of the boys of the United States were failures, and that only one in two thousand were born degenerates. The balance were from apparently good families, but had not been given the proper attention by their parents. It is wrong to try to curtail youthful energy, but it is the parent's duty to see that that energy is directed along proper channels.

The Story of the Biggest Bell

"Big Ben," England's most famous bell, is fifty-four years old. In 1859 the world-famous bell, which peals out the hours in the tower of the Westminster Houses of Parliament was turned out of the mould. "Big Ben" was named after Sir Benjamin Hall, Commissioner of Works, who was a man of enormous stature. The great sounding instrument was formally christened "St. Stephen," but from the first it was popularly called "Big Ben." The bell was designed by E. B. Denison, who later became Lord Grimthorpe. The first attempt to mold the bell was a failure, and it was broken up and the same material, twenty-two parts copper and seven parts brass, was used in the second casting. The bell weighed six hundred and thirty-three and a half tons, and seven feet and six inches in diameter and seven feet and ten inches in height. The clapper weighed six hundred pounds. "Big Ben" cracked shortly after he was hung in place, but his tones, previously somewhat nasal and drizzle-like, were improved by the accident.

Neither England nor America possesses bells which can approach in size the famous old bells of Russia and China. The "Great Paul" bell, hung in the tower of St. Paul's Cathedral, "Great Tom," at Oxford, hung in 1860, even and a half tons, the "Old Johnnie" dating from 1610, which weighed about four and a half tons.

North America's greatest bell is the "Gros Bourdon" at Notre Dame Cathedral, in Montreal, which weighs 24,780 pounds. This bell was hung in 1847 in one of the twin towers of the cathedral. These towers are 227 feet high and top the largest church in the American continent, capable of holding 15,000 people. Another famous American bell was that which, before it was fractured, hung in the City Hall of New York. It weighed eleven tons, and its peals could at times be heard thirteen miles up the river.

Perhaps the best-loved bell in the world is the Liberty Bell of Philadelphia. This bell was ordered from England by the Pennsylvania Assembly in 1753, and reached Philadelphia the following year, but cracked when first rung. The bell was recast by "two ingenious workmen" of Philadelphia, Snow and Pass. Their first attempt was not an entire success, but in 1753 the bell was raised into place in the tower and was found to be entirely satisfactory as to tone, although some Philadelphians objected to its clanger. The raising of the bell was marked by a banquet for those engaged in the work, which included "Two pecks of potatoes, forty-four pounds of beef four gammons, mustard, pepper, salt, butter a cheese, 300 tins, three gallons rum of John Jones, thirty-six loaves of bread of Lucy J. Baker, and a barrel of beer of Anthony Morris."

The largest bell ever made was cast in Moscow, Russia, in 1733. Its weight was 240 tons. It was too heavy to be used as a bell, so a hole was made in it to serve as a door and the interior was used as a chapel.

For fire insurance in good, strong companies, see J. L. Landis & Co.

NOTICE

To the Citizens of Redcliff:

I have completed my new hall, which is as near up-to-date as possible and as good as any to be found in larger centres. The main hall is 31 feet 6 inches by 52 feet; well lighted both night and day. It is also well ventilated and has a good kitchen for preparing lunches. This hall is suitable for lodges, dancing parties, banquets, public meetings, etc.

I will appreciate the opportunity of making arrangements with any who may wish to use the hall and will do my best to satisfy in every particular.

REASONABLE RATES OF RENT PER NIGHT OR DAY.

I might say the small room is a good place for Council or Board of Trade, or similar meetings. Rates for such meetings, \$2.50.

Redcliff Scouts

Do Some Scouting

The following has been handed in for publication:

A piece of good scouting was done last week by our assistant scout-master, Mr. Collins, who finished up his duties Saturday night by locating the famous Chief Scout of America.

Mr. Collins had boarded the last train for Redcliff, and it had got on the move when one of his scouts reported that the Chief had got off the train from the south and was on his way to the local hotel. Mr. Collins at once slipped off and followed the Chief to his bedroom, who, although partly prepared for his bed, consented to hear what a scout had to say, and promised if a meeting could be arranged for Sunday to come here. Mr. Collins then at 11.45 slipped to Redcliff his success and on Sunday morning the Scout Master, Mr. Wade, got quickly to work to arrange a meeting in the Empire Theatre for 4.30 p. m., which would enable all boys and girls to be present from their several schools, and telephoned to many of our citizens to let them know what a great man his assistant had secured.

The Mayor kindly undertook to bring the distinguished visitor to the hall at 4 p. m. Mr. Collins provided an escort of scouts for the trip, but the Mayor has been the distinguished visitor to a run around the town and as a result the scout salute was not given until after the meeting.

Dr. Wall was chairman and asked the Mayor to introduce Mr. E. Thompson to the Redcliff people, who have been in this district for several years to hear what the Chief had to say on the "Scout Movement."

Thanks to our two able scoutmasters Redcliff had an interesting two hours, and we hope all now here know what scout salutes are.

May Have Antelope Park in This District

As a result of the investigation of two representatives of the Dominion Government who have been in this district for the past week, it is quite probable that an antelope park will be located on the prairie along the river some place within twenty miles of Redcliff.

The location mentioned for the antelope park is one where a park, antelope, appeared very strongly to Max Graham, of Ottawa, and Ernest Thompson-Soren, of New York, who have been in this district for several days seeking a possible location for the park. The visitors also investigated conditions at the "Cyprus Hills" and it is said they will recommend the location there of a Dominion park in which animal life of the prairie will be protected.

ONE LESSON SUFFICIENT

When Willie's father came home to supper there was a vacant chair at the table.

"Well, where's the boy?"

"Willam" is upstairs in bed."

The answer came with painful precision from the sad-faced mother.

"Why, who's his boy?"

"An anxious parent."

"It gives me to say, Robert, that our son—your son—has been heard swearing on the street. I heard him."

"Swearing? Scouting? I'll teach him to swear."

And he started to get up, but he stumbled and came down with his chin on the top step.

When the atmosphere cleared a little Willie's mother was saying sweetly from the hallway: "That will do, dear. You have given him enough for one lesson."

USED TO ADVANTAGE

The Sunday school teacher was possessed of the praiseworthy desire to promote thrift among the class of boys. He had given Joe and Johnny a dime each for doing some work for him.

"I hope to hear, when we meet again," he said, "that you have used the money to advantage."

The next time they met Joe produced two dimes.

"Well, done, my lad," said the delighted teacher. "I am pleased to see my lessons are having their fruits. But what of your dime Johnny?"

"Please, sir, I lost it to-day," said Joe!

SUMMER SCHOOLS

The plant of the University of Alberta will not be idle during the summer months. It will be utilized for a summer school for teachers conducted by the department of education of the Province of Alberta. This school is particularly valuable to teachers in rural districts, offering as it does a comprehensive course in Nature and Agriculture, both theoretical and practical. A study is made of soils, their properties and methods of improvement, and a considerable amount of field work will be

done. School gardening is given special attention. Besides this the department offers a course in elementary manual training and woodwork. A full-time course in art, including drawing and color work and their relation to other school studies; and a course in Art and physical culture.

By-Law No.

A BY-LAW OF THE TOWN OF REDCLIFF TO PROVIDE FOR THE RAISING OF THE SUM OF \$15,000 TO BE EXPENDED IN CONNECTION WITH THE ERECTION OF A FIRE HALL, ENLARGING AND PURCHASING FIRE EQUIPMENT.

WHEREAS, the Municipal Council of the Town of Redcliff deem it expedient to erect a new Fire Hall and purchase and convert the present Fire Hall into Municipal Offices and purchase Fire Equipment;

AND WHEREAS, it is estimated that to carry out the said work will be required the sum of \$15,000.00;

AND WHEREAS, in order to carry out the said work, it is expedient that a sinking fund be raised by the Town of Redcliff in the sum of \$15,000.00, and the said Council has resolved that the indebtedness thus created be paid at the end of twenty (20) years and bear interest at the rate of six (6) per centum per annum;

AND WHEREAS, it is expedient to create a sinking fund for the repayment of the said sum of \$15,000.00, and the said Council has resolved that the said sum of \$15,000.00 be paid annually by the Secretary-Treasurer of the town to the Municipal Council;

AND WHEREAS, there is required to be raised in each year a sum of \$900.00 to pay the interest on the said sum, and the sum of \$500.00 to form a sinking fund for the payment of the principal amount;

AND WHEREAS, the amount of the said sinking fund property of the said Municipality according to the last revised assessment roll thereof is \$2,500.00;

AND WHEREAS, the total existing debt of the Municipality, outside of the debt for the current expenses of the year for the sum of \$175,000.00, is as follows:

AND WHEREAS, it is expedient that this by-law should take effect on the first passing thereof;

That A. B. C. shall be lawful for the Mayor and Secretary-Treasurer of the said town to borrow on the credit and security of the town at large a sum or sums of money not exceeding the sum of \$15,000.00.

That the said sum shall be expended in the erection of a Fire Hall, enlarging and converting the present Fire Hall into Municipal Offices and purchasing Fire Equipment; and for the purpose of raising said sum, and the interest thereon, not to exceed in aggregate the sum of \$15,000.00 as aforesaid, shall be raised, each of which debentures shall be dated on the day of the issue thereof and shall be payable at the said debentures at the rate of six (6) per centum per annum, and the interest thereon shall be paid at the end of each year at the holder's option at the Royal Bank of Canada in the City of Redcliff, Alberta, in the City of Toronto, Ontario, in the City of Montreal, Quebec, or in gold coin of the United States of America of the present standard of weight and fineness.

IN WITNESS WHEREOF, the Municipal Council of the Town of Redcliff has caused this By-Law to be signed and its seal to be hereunto set on this 22nd day of May, 1914.

at the said bank in New York City.

2. The said debentures shall be signed by the Mayor and Secretary-Treasurer of the Town of Redcliff and sealed with the seal of the Corporation of the Town of Redcliff.

During the currency of the said debentures, there shall be raised annually by special rate over and above all other rates now in force, all the moneys payable to the Town of Redcliff in the sum of \$15,000.00, less the amount required to pay the interest on the said debt in each and every year, to form a sinking fund for the payment of the principal amount of the said debt at the end of twenty (20) years.

That the Secretary-Treasurer of the town shall pay the annual amount to be levied on account of the said debt to the Provincial Treasurer annually.

16. This by-law shall take effect and come into force on the day of the first passing thereof.

DONE AND PASSED BY THE Municipal Council of the Town of Redcliff in Council assembled.

Read a first and second time this 4th day of May, A. D. 1914.

(Signed) BENJAMIN J. HOTY, Mayor.

(Seal of Town of Redcliff) A. B. CLOW, Sec.-Treasurer

PUBLIC NOTICE

NOTICE is hereby given that the foregoing is a true copy of the proposed by-law to provide for the raising of the sum of \$15,000.00 to be expended in connection with the erection of a Fire Hall, enlarging and converting the present Fire Hall into Municipal Offices, and purchasing Fire Equipment, which has been introduced, and which will be finally passed, in the event of the assent of the burgesses being obtained thereon, and that upon Monday the 1st day of June, 1914, the voting upon the proposed by-law will be held between the hours of 10 o'clock in the forenoon and 7 o'clock in the afternoon of the same day at the Hall in the building known as the "Crown Hotel," in the City of Redcliff, Alberta.

WILLIAM HENDERSON, Returning Officer.

IN THE MATTER OF THE COURT OF CONFIRMATION OF THE TAX ENFORCEMENT ACT OF THE TOWN OF REDCLIFF, IN THE PROVINCE OF ALBERTA.

"TAKE NOTICE" that His Honor, Judge Carpenter, Judge of the District Court of the District of Calgary, has appointed Wednesday, the 15th day of May, 1914, at the hour of 10 o'clock in the forenoon, at the Court House in Medicine Hat, as the time and place for the holding of the Court of Confirmation to confirm the Tax Enforcement Return of the Town of Redcliff for the year 1913.

DATED at Redcliff, the 20th day of April, A.D. 1914.

A. B. CLOW, Solicitor for the Town of Redcliff.
